

# ATDD/TDD Participant Prerequisites

We are very much looking forward to having you participate in ATDD and/or TDD Training. A link to the meeting is provided in the course invitation email.

This is a hands-on workshop. Please take note of the laptop system requirements and follow the setup instructions below prior to training. If you have any issues or questions regarding set-up, please reach out to Josh Novak at [josh.novak@leandogsoftware.com](mailto:josh.novak@leandogsoftware.com).

## Required Software:

- Git
- Docker
- TypeScript
- VS Code

## Required Access:

*Your laptop must have the capabilities and proper configuration prior to attending. If you do not understand what any of this is, please contact your company's tech support for help.*

- Be able to install software on your laptop  
(Local Admin in Windows, or Administrator in macOS)
